This improvement in net income was accomplished even as the bank absorbed about \$266 thousand in non-recurring charges related to converting to a new core processing system in November 2019.

For 2019, Average Loans were up 11.5% compared to 2018 and Average Deposits grew 4.8%. In addition, the change in deposit mix as evidenced by 24.4% growth in Average Non-Interest-Bearing Demand Deposits during the year helped hold down funding costs and improve net interest income.

The bank's asset quality also remained strong in 4Q19, with Non-Performing Assets as a Percent of Total Assets standing at only 0.43% and the bank's Allowance for Loan Losses as a Percent of Total Loans at 1.16%. Non-Performing Assets included one loan that represented the bulk of the total. Repayment of the loan including interest and fees is expected in 1Q20.

As previously reported, in 3Q19 the bank had added \$90,000 to the Allowance for Loan Losses to support overall loan growth.
