## **AB&T National Bank First in the Community to Offer Card Control**

Albany, Georgia (January 14th, 2016) - AB&T National Bank has announced a new level of security and peace of mind for their clients - Card Control.

“We are excited to be the first bank in the market to have a service like card control. We are committed to excellent service and we have made the investment to provide this as part of our digital banking package” said Perry Revell, Senior Vice President for AB&T. Clients can now switch their card on and off using the app – this advancement, coupled with the new in-card chip technology will add new layers of security for each account. Revell added “We are always thinking of ways to make our bank work better for our clients - and providing more security, convenience and peace of mind is a win for everybody.”

AB&T National opened its doors in 1999 as Albany Bank & Trust, focused on providing customers with local decision-making and exceptional quality service. AB&T is a member of the FDIC and is an Equal Housing Lender. For more information, visit [www.abtgold.com](http://www.abtgold.com).
