

March 25 Update: AB&T Readiness -Our Commitment to You During COVID-19

A true community bank is just that—a bank that operates in, serves and loves its local community.

As our community continues to adjust daily in the face of COVID-19, AB&T is once again taking proactive measures to ensure we keep our associates, clients and community safe, while also ensuring the bank continues to meet all of your banking needs.

Beginning Friday, March 27, our Lee County branch, including the drive through, will be temporarily closed to client traffic as we consolidate our banking operations at our Main Office location on Meredyth Drive and our Pine Avenue location in downtown Albany. The Lee County ATM will remain fully operational.

By taking this crucial step, we will be positioned to continue serving our clients and community well into the future, while also doing our part to help quell the spread of COVID-19 as we perform the banking functions necessary to facilitate commerce throughout the Albany area and beyond.

In addition to the two AB&T locations still fully operational, our dedicated team of bankers is still available by phone and/or email to help with your needs and answer any questions you may have.

Clients can also take advantage of AB&T's Digital Banking platform which allows clients to monitor balances, transfer funds, pay bills and make mobile deposits through our ABT Go mobile app or desktop interface.

To learn more about AB&T Digital Banking visit our website at www.abtgold.com or contact a client service representative at 229.446.2265.

We are all having to make difficult choices, but know we are committed to serving you and honoring our responsibility to the community at large. Know that we are here for you and will continue to be for as long as this crisis persists. We are grateful for the trust you place in us.
